Press Release from 2025-04-29 / Group, Investor Relations

Changing it up: KfW active as an investor in crypto securities for the first time

- From issuer to investor in crypto securities: a change in perspective is an important step on KfW's digital learning journey
- Germany's first "Blockchain Pfandbrief", issued by Berlin Hyp, is KfW's first DLT-based investment
- KfW contributes to the development of the secondary market for DLT-based securities – DekaBank is a central partner

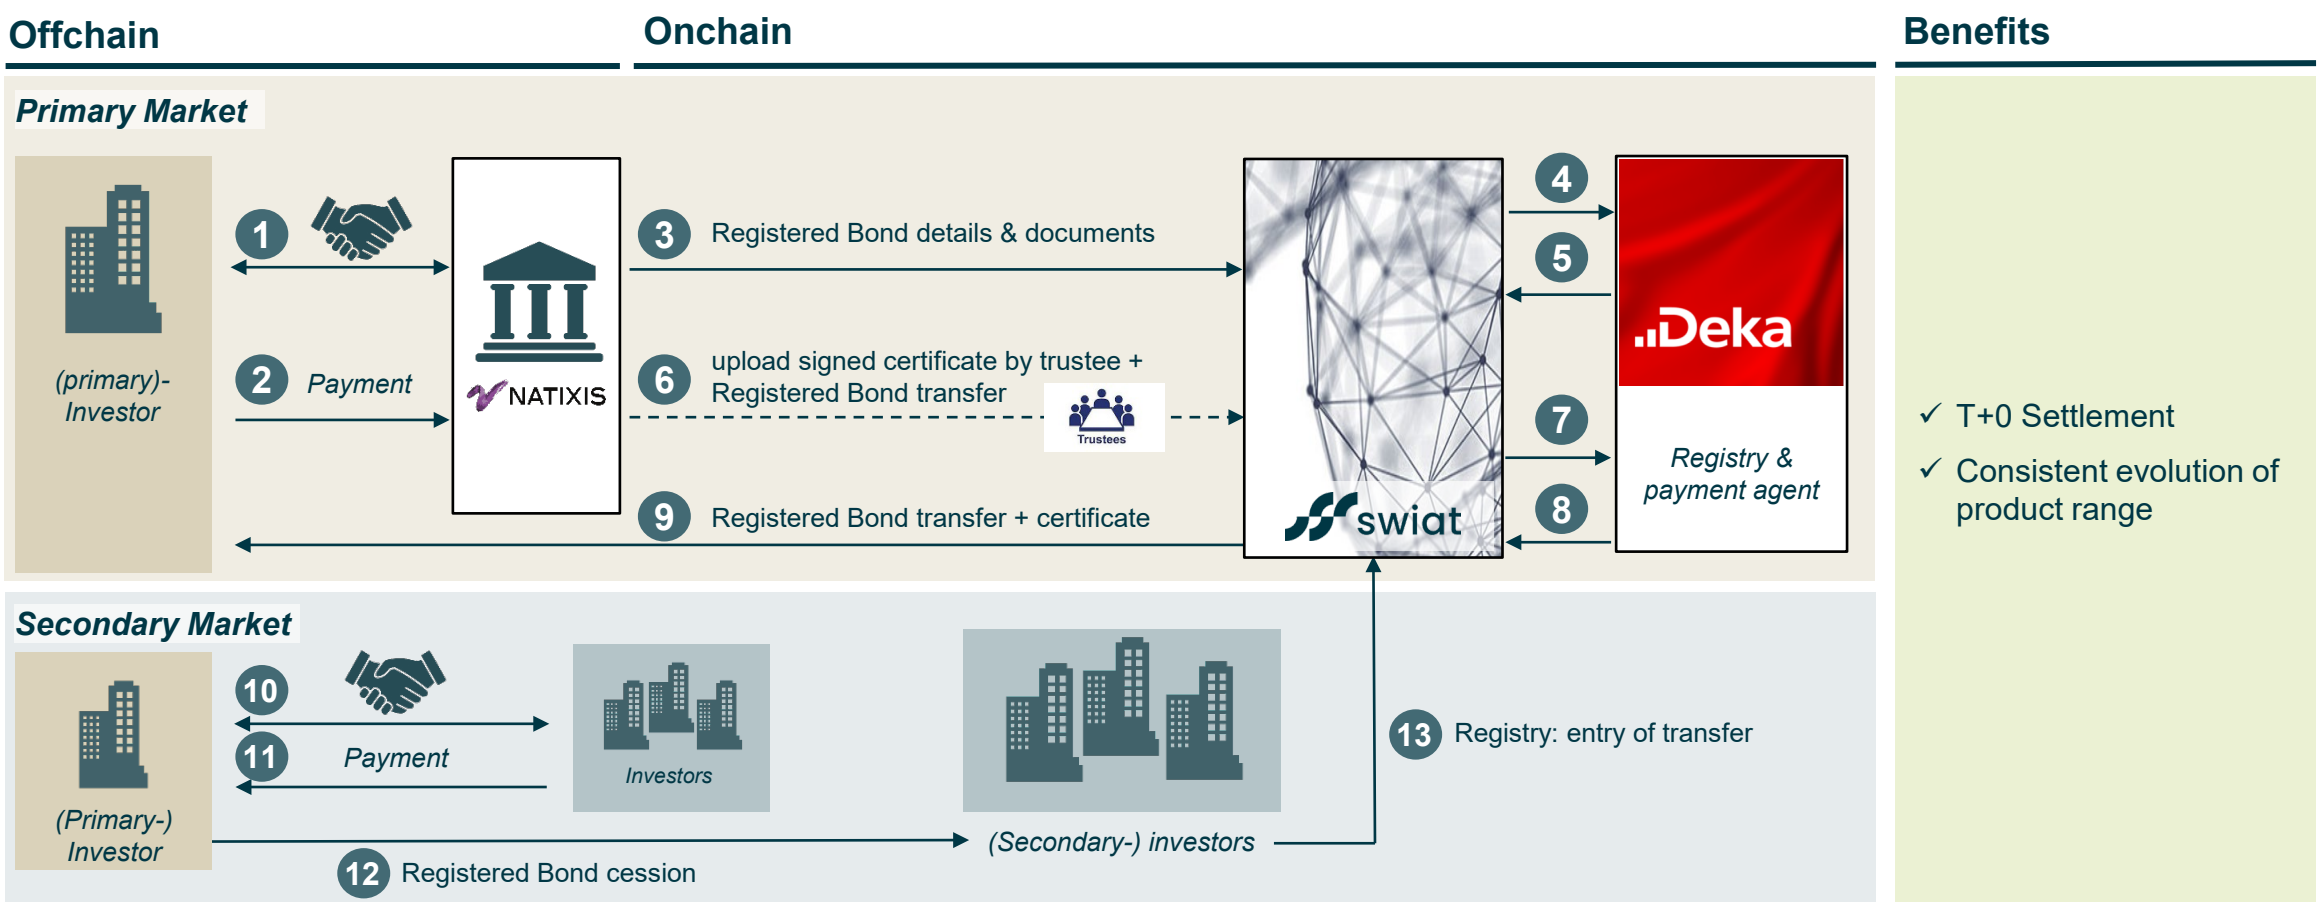
Siemens digital bond traded on regulated trading venue 360X

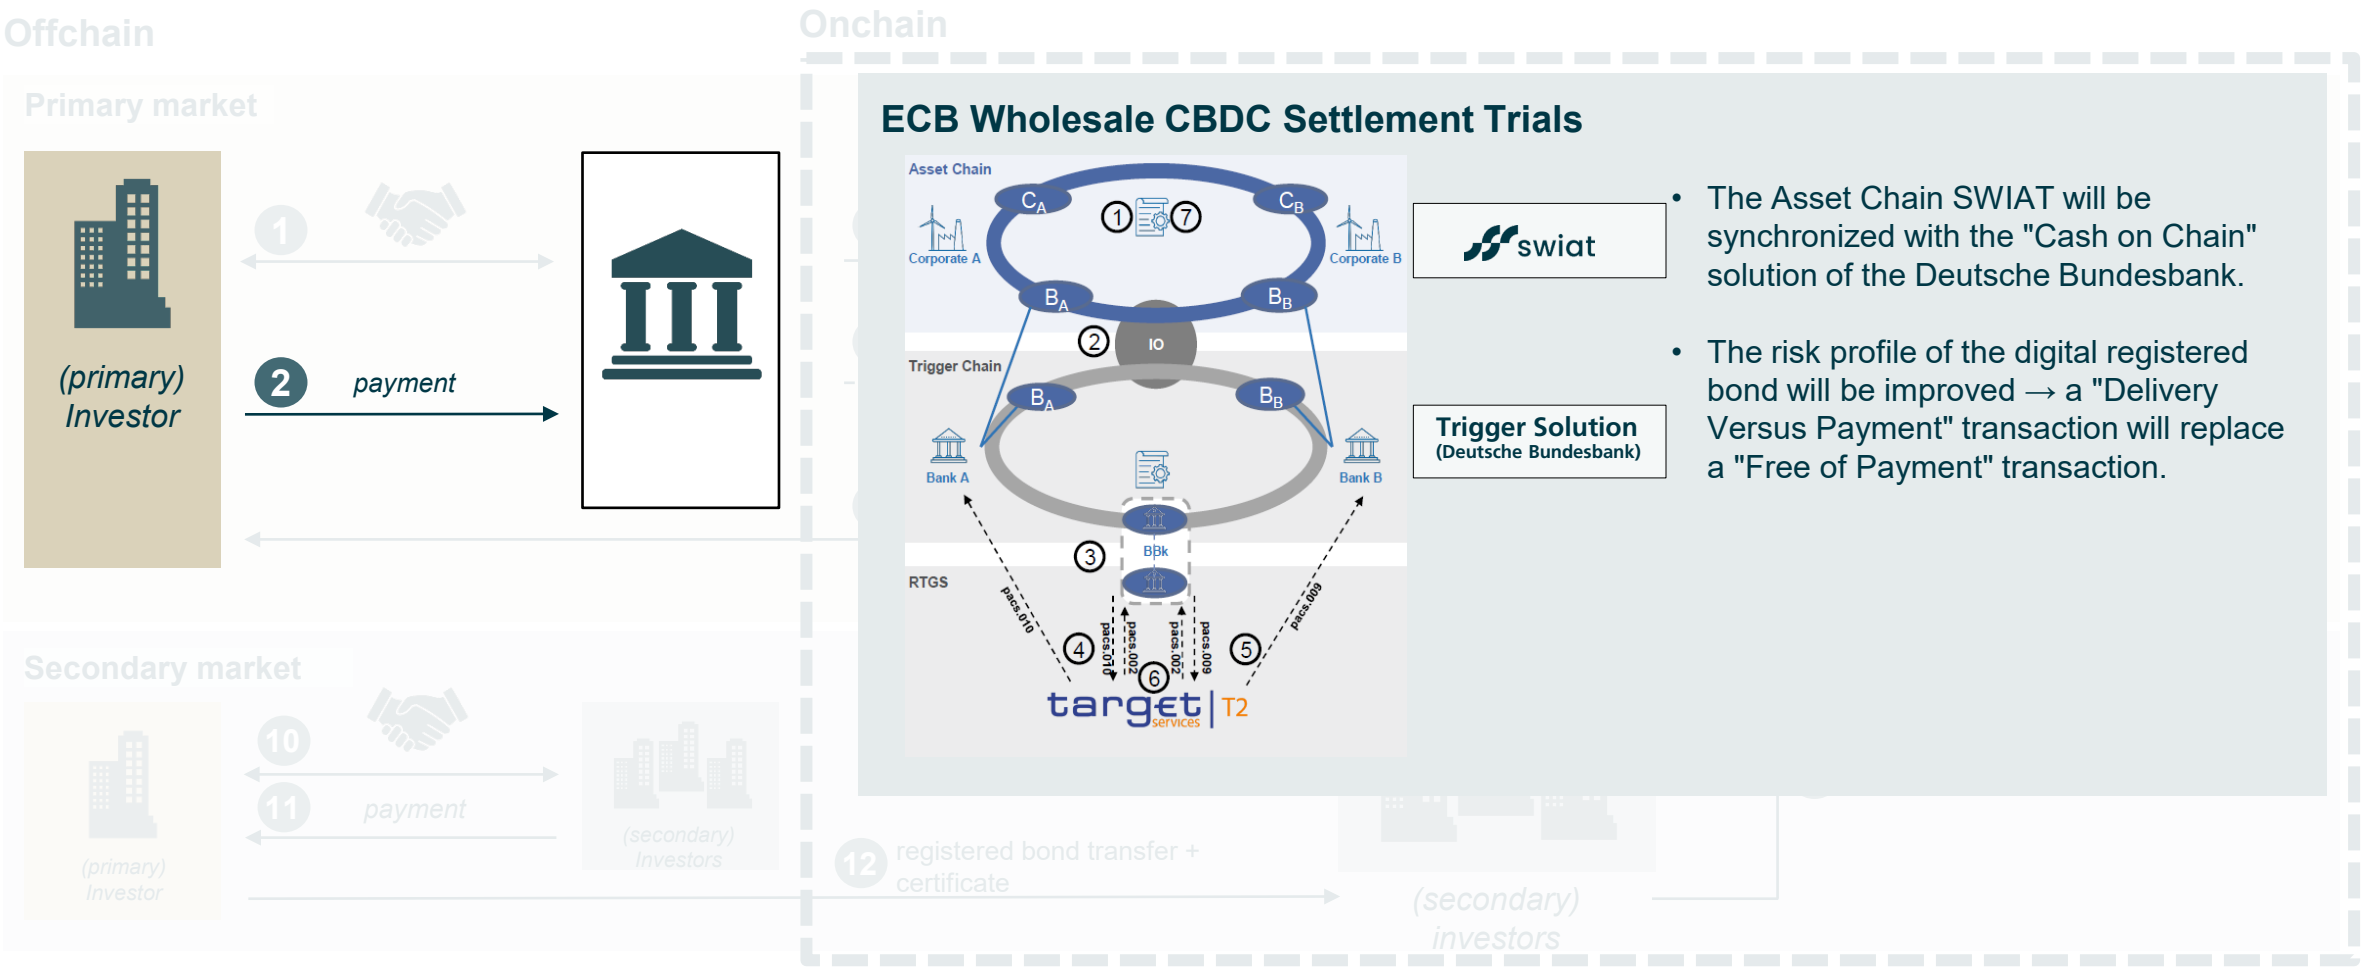
August 11, 2025 · by Ledger Insights

Digital Covered Registered Bond

Example: Natixis Pfandbriefbank AG (August 2024, Size €100m)



Digital Registered Bond (covered) settled with central bank money



- The Asset Chain SWIAT will be synchronized with the "Cash on Chain" solution of the Deutsche Bundesbank.
- The risk profile of the digital registered bond will be improved → a "Delivery Versus Payment" transaction will replace a "Free of Payment" transaction.

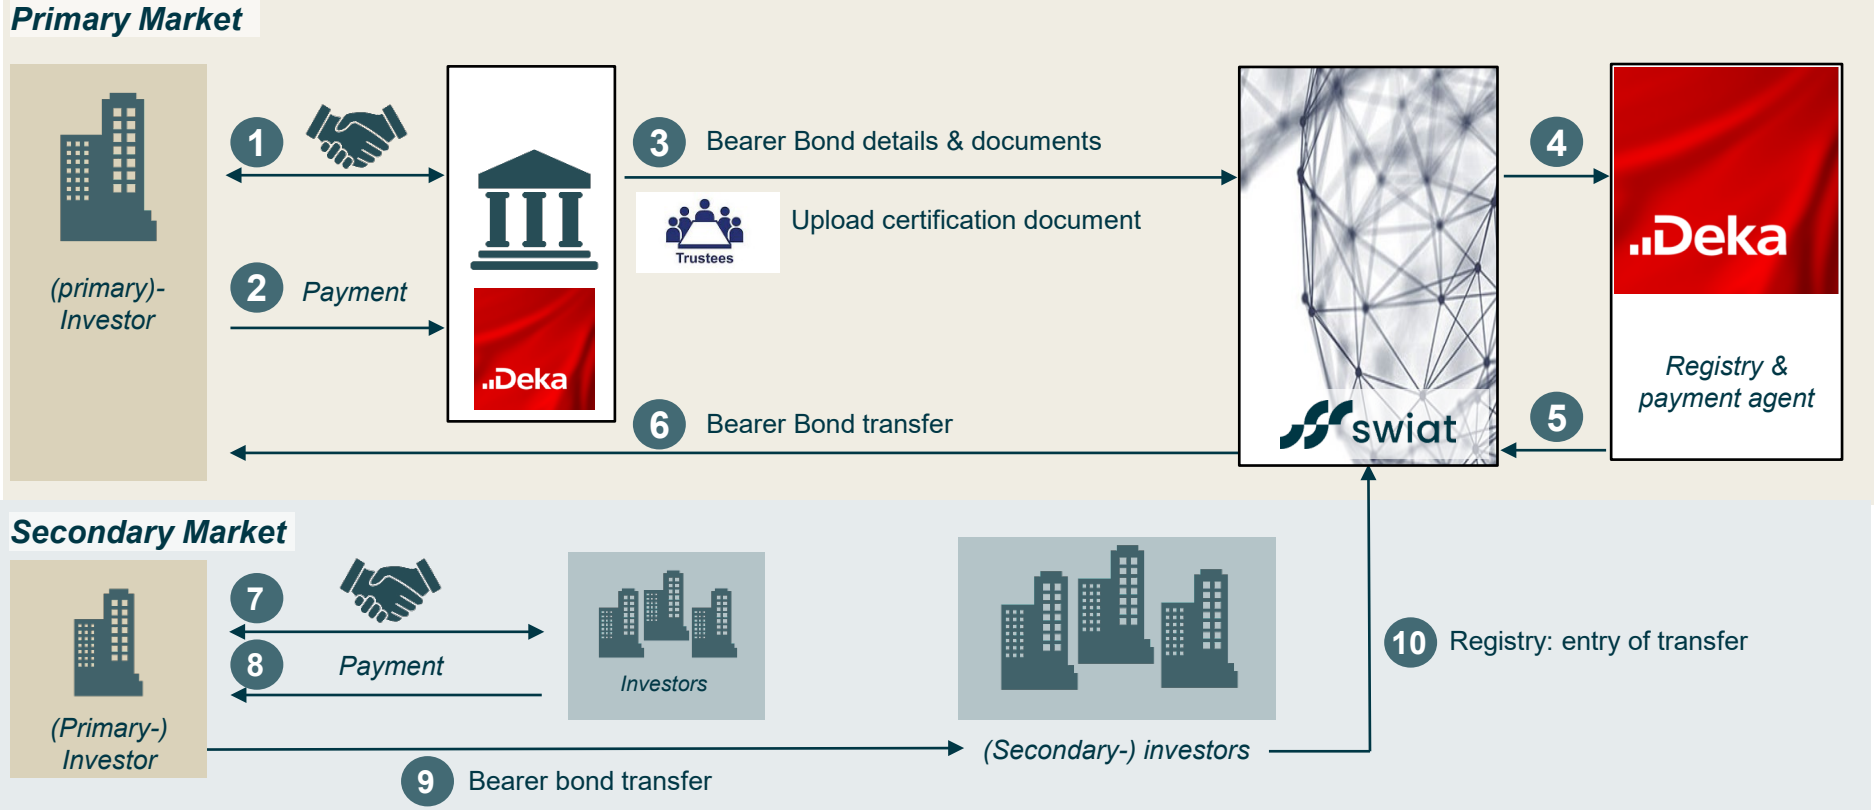
Digital Covered Bearer Bond

Example: DekaBank (Nov 2025, Size €50m, Maturity 2y)

Offchain

Onchain

Benefits



✓ New process for trustee

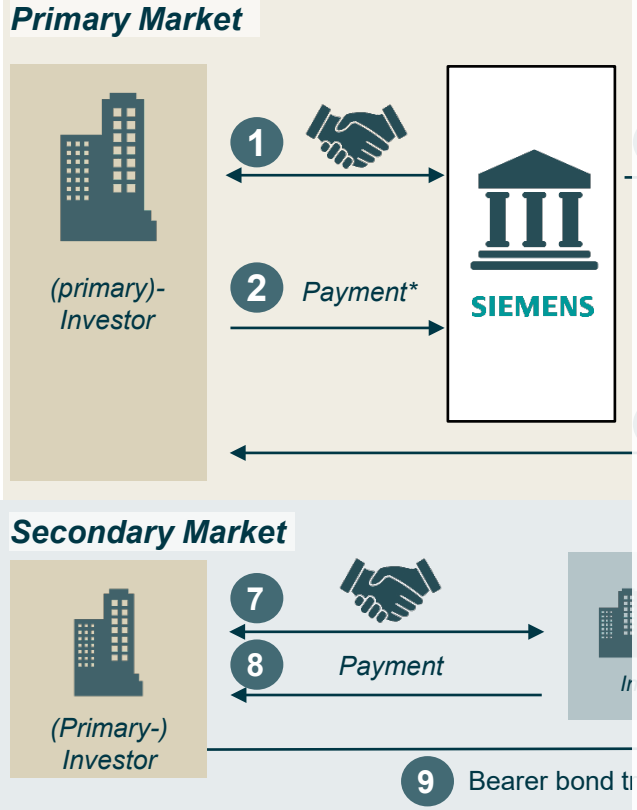
Upload certification document from the trustee

- Upload terms and conditions with certification document from the trustee, which proves the validation of the cover pool

Digital Bearer Bond settled with central bank money

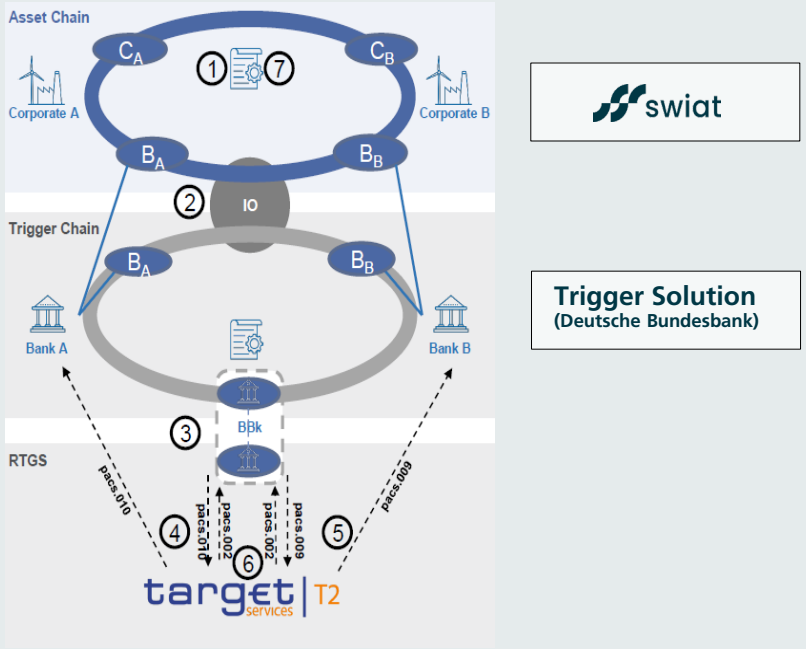
Example: Siemens AG (September 2024, Size €300m, Maturity 1y)

Offchain



Onchain

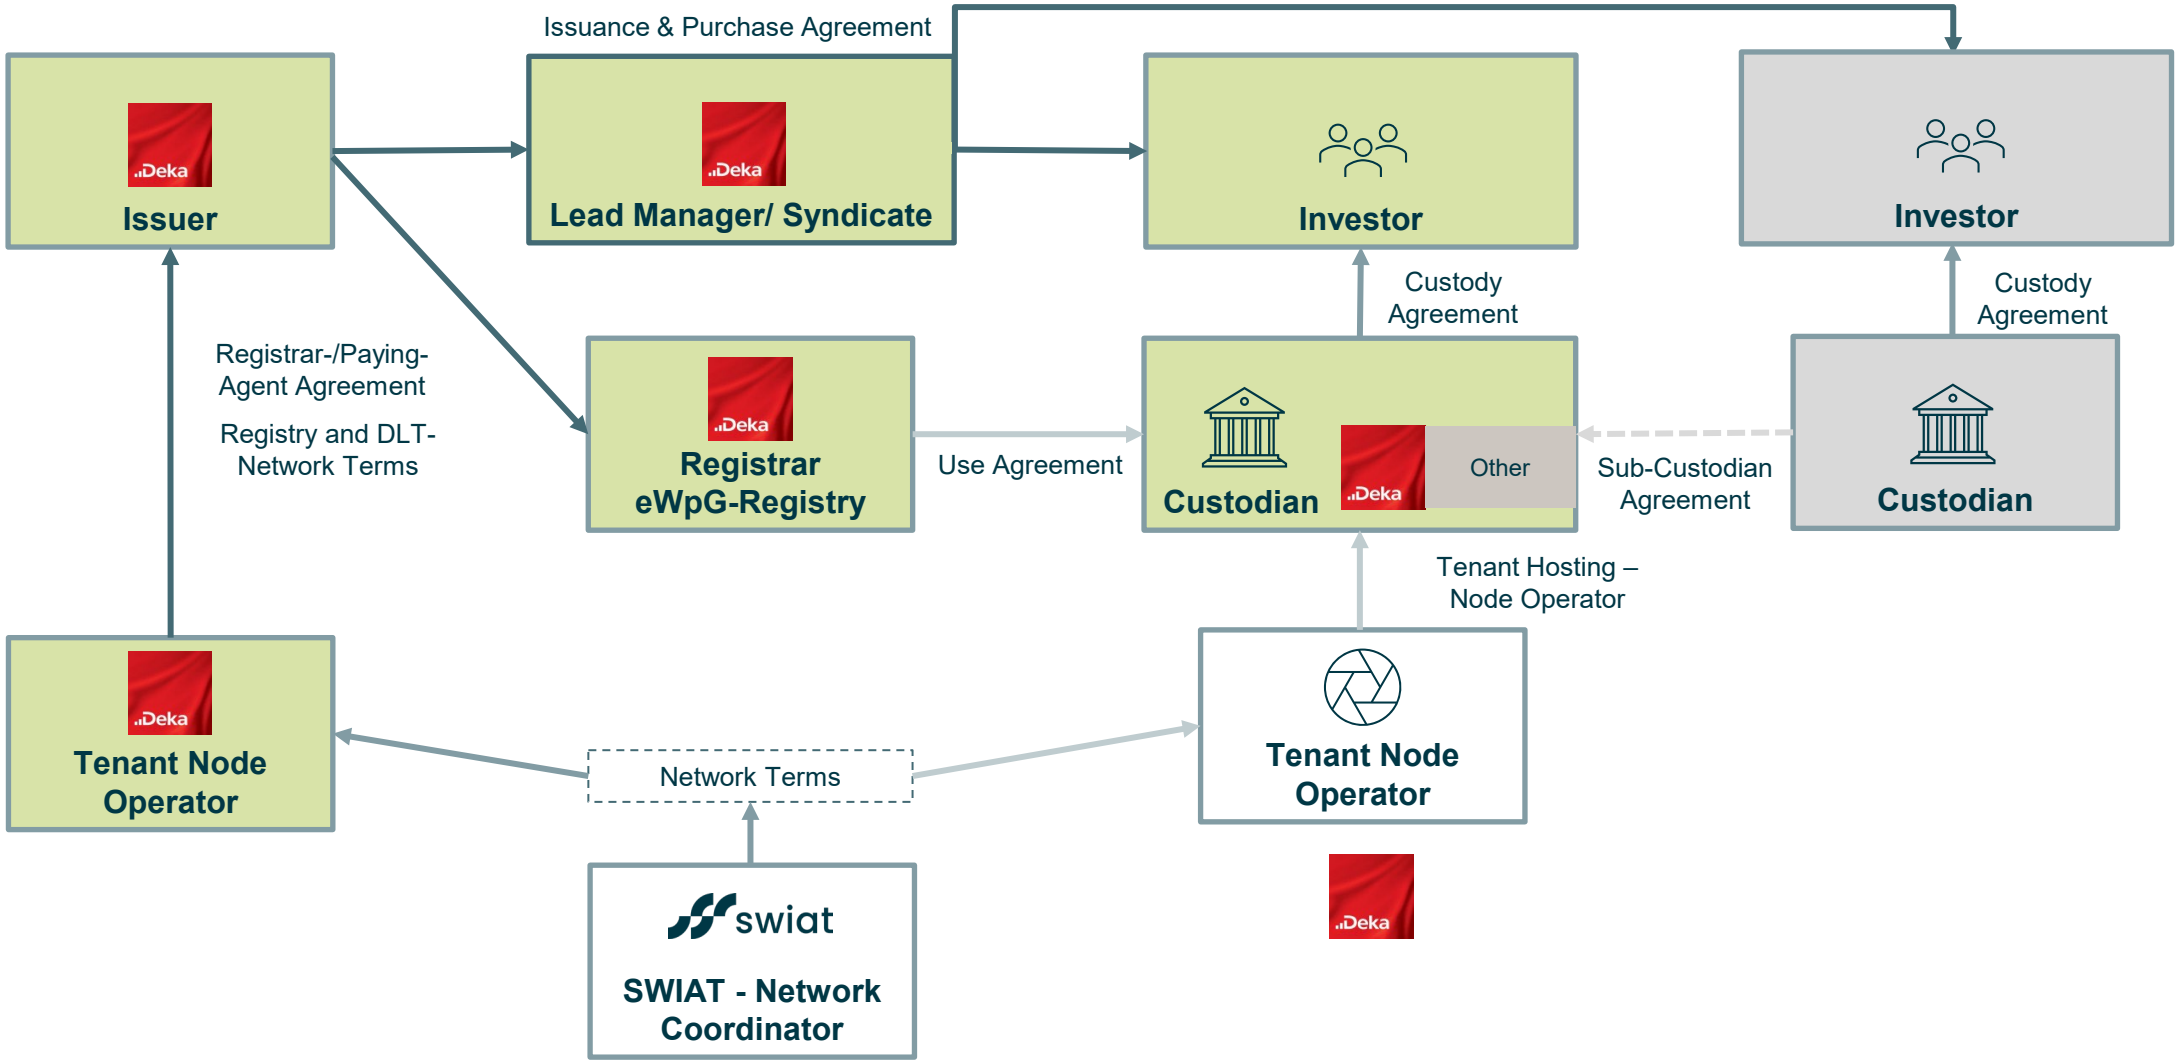
*ECB Wholesale CBDC Settlement Trials



Benefits

- ✓ T+0 Settlement
- ✓ Synchronising the „Asset Chain“- SWIAT with the „Trigger Solution“ of the Deutsche Bundesbank

Overview Setup
Digital Bearer Bonds (collective entry registration)



Disclaimer

This presentation has been prepared by DekaBank for the purpose of informing the respective stakeholders. The assessments submitted here have been made to the best of our knowledge and belief and come (in part) from sources that are not verifiable by us and are generally accessible. Liability for the completeness, timeliness and accuracy of the information provided to the extent permitted by law, including the legal remarks, is excluded. The information does not constitute an offer, an invitation to subscribe or purchase financial instruments or a recommendation to purchase. The information or documents are not intended to form the basis of any contractual or other obligation.

The Deka Group Annual Report and the Interim Financial Report as well as the corresponding presentations contain forward-looking statements as well as expectations and forecasts. These are based on the information available to us at this time, which we have deemed to be reliable after careful consideration. We do not assume an obligation to update based on new information and future events after the publication of this information. We have derived our estimations and conclusions from these forward-looking statements, expectations and forecasts. We expressly point out that all our future-oriented statements are associated with known or unknown risks or imponderables and are based on conclusions relating to future events, which depend on risks, uncertainties and other factors that are outside of our area of influence. Such developments can result from, among other things, a change in the general economic situation, the competitive situation, the development of the capital markets, changes in the tax law and legal framework and from other risks. The events actually occurring in the future may thus turn out to be considerably different from our forward-looking statements, expectations, forecasts and conclusions. We can therefore assume no liability for their correctness and completeness or for the actual occurrence of the information provided.

The presentation may not be reproduced in excerpts or as a whole without the written permission of DekaBank or passed on to other persons. The English translation of the Deka Group Annual Report and the Interim Financial Report is provided for convenience only. The German original is definitive.

Due to rounding, numbers and percentages in this presentation may not add up precisely to the totals provided.

Annual figures refer to both key dates and time periods.
